

Chancellor's Research Fellowship Implementation Timeline Template

Whether you are submitting a research or a creative activity proposal, you will need to provide a timeline of activities that are associated with each stage of your project. Please include anticipated start date(s) and completion date(s) for all relevant activities (i.e., preparation, project development, analysis, reports, creating presentation materials). If requesting a stipend, please indicate the minimum amount of work hours per week that you expect to work during each quarter.

Be sure to incorporate the time required for completing your quarterly interim reports, and the time for developing your abstract and presentation at the UCR Annual Undergraduate Research Symposium. Please use the template below to embed a timetable into your proposal.

Implementation Timeline
Summer Quarter (if included in proposal):
Fall Quarter:
Winter Quarter:
Submit a proposal to present the Symposium for Undergraduate Research and Creative Activity.*
Spring Quarter:
Present at the Symposium for Undergraduate Research and Creative Activity.*
